HEAD TEACHER'S HIGHLIGHTS

Dear parents

A cold and snowy week for us. I am glad we didn't need to resort to

closing, the less disruption the better for the children's learning. They had a great playtime in the snow with some super snowmen made, and chance to have fun playing together.

The FOS have done are doing a fantastic job organising the Easter raffle, with some surprising prizes. They will be sending home raffle tickets very soon. Thank you for all the tombola prizes that have come into school, it is much appreciated.

We look forward to seeing you all next week at our parent consultation afternoon. It will be nice for you to have time to see your child's work and progress. If you haven't had chance to make an appointment yet, please speak to your child's class teacher.

Lots of children are enjoying their Mathletics work and are busy earning certificates which is great to see. Please keep encouraging them to take part. It really does help speed up their maths skills and understanding of mathematical concepts.

Have a great weekend.

Best wishes

Jenny Griffiths

SNOW DAY IN SCHOOL

WELCOME TO CLASS 1 PAGE

Well, it certainly hasn't felt very Spring like this week has it?! How exciting to have snow again though!

Our focus text this week has been a story called *The Wellington Cobbler and the Wrekin Giant* which is by a local author. Lots of the children said they had seen and even climbed The Wrekin so that made the story about a very grumpy giant with a grudge against the people of Shrewsbury even more exciting!

In phonics this week we have recapped the sounds ay, ee, igh, ow and oo.

In maths reception have been looking at which Numberblocks can hide behind each other and which ones can't because they have more blocks.

In year 1 the children have been exploring what happens when add and subtract 0 from a number.

$10 - 0 = \square$	$4 - 0 = \square$
$9 - 0 = \square$	$3 - 0 = \square$
$8 - 0 = \square$	$2 - 0 = \square$
$7 - 0 = \square$	$1 - 0 = \square$

$10 + 0 = \square$	$0 + 10 = \square$
$9 + 0 = \square$	$0 + 9 = \square$
$8 + 0 = \square$	$0 + 8 = \square$
$7 + 0 = \square$	$0 + 7 = \square$

We will be sending out a flipped learning task to do with our local history next week so keep an eye out for that! Have a nice (hopefully warmer) weekend and we will see you next week.

Class 1 Star

Rewarded for trying so hard in everything she does.

WELCOME TO CLASS 2 PAGE

It has been another exciting week in Class 2!

The children are using their programming skills to give the Beebot a sequence of instructions to move it to different symbols on our mat. We had to make sure we used clear before we inputted our instructions.

In maths the year 2 children have mastered the relationship between multiplication and division.

$$5 \times 10 = 50$$

so

$$50 \div 10 = \square$$

$$\square \times 10 = 30$$

so

$$30 \div 10 = \square$$

$$15 \times 10 = 150$$

so

$$150 \div 10 = \square$$

In year 1 the children have been exploring what happens when add and subtract 0 from a number.

$$10 + 0 = \square \quad 0 + 10 = \square$$
$$9 + 0 = \square \quad 0 + 9 = \square$$
$$8 + 0 = \square \quad 0 + 8 = \square$$
$$7 + 0 = \square \quad 0 + 7 = \square$$

$$10 - 0 = \square \quad 4 - 0 = \square$$
$$9 - 0 = \square \quad 3 - 0 = \square$$
$$8 - 0 = \square \quad 2 - 0 = \square$$
$$7 - 0 = \square \quad 1 - 0 = \square$$

In science the children have started a seed diary and discussed the life cycle of a plant from a seed.

Did you know
a seed has a
tough coat to
protect it?

Can you see
the root
growing?

Class 2 Star

Rewarded for being a superstar in every lesson and a wonderful role model.
