We are committed to inclusivity, ensuring that:

- every child is able to explore the world around them and reach their full potential
- every member of our staff is able to work effectively and comfortably
- we are able to provide a role within our local community – including to our families and visitors

Furthermore we are committed to the aim of our curriculum, facilities, resources and before and after school clubs being accessible to our children, their families, our staff, volunteers and visitors as relevant.

The Equality Act 2010 states that a schools accessibility plan should:

- (a) increase the extent to which disabled pupils can participate in the school's curriculum,
- (b) improve the physical environment of the school for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school, and
- (c) improve the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled.

This must be within a reasonable time and in ways which are determined after taking account of the pupils' disabilities and any preferences expressed by them or their parents.

Our Accessibility Plan considers ways in which we can achieve these aims, identifying actions to improve our accessibility in the three key areas outlined above:

- Access to our physical environment
- Access to our curriculum
- Access to information

Our accessibility plan will be resourced, implemented and reviewed as necessary, including if circumstances change.
